Artist Statement

I have been an instructor in experiential education for ten years. I thrive and promote hands - on learning and creation. I enjoy teaching art and sharing techniques because in all of us we are creative. I work mainly with young adults which keeps this work energetic and alive. My work is experimentally based, I work on my visual voice daily.

Background

Tanya is a visual artist who has been living in Arizona for the last 5 years. Prior to her arrival to the area she travelled extensively working on our public lands to promote minimum impact and how to recreate responsibly outdoors. Tanya's drawings and paintings have been shown in the Tucson area.
